What is Trueserials.com?

Trueserials.com is a hosted electronic resource management service. Trueserials.com offers a flexible interface and highly customizable output through a simple annual subscription that includes all modules and hosting. Built on a growing knowledgebase that already contains over 600 full text collections and journal Aggregations, there are many ways that **trueserials.com** works for your library.

With **trueserials.com**, you can make the most of your collection investment by presenting e-journals, print journals, and databases to your patrons in meaningful ways. Choose to participate in the **trueserials.com** integration with Google Scholar's Library Links, and you open a powerful discovery portal into your collection.

Trueserials.com also offers a robust ERM (Electronic Resources Management) platform with which your library can track licenses, subscription renewals, and administrative data for journals, databases, and whatever other local resources you need to manage.
